

****ATTENTION IRRIGATORS****

Winter Irrigation Schedule begins Saturday, December 14, 2024

During winter delivery, we only receive water from the #1005 outlet which is located at the corner of Citrus and Northern. There is only one schedule posted (instead of two) for the entire community and the ditches **DO NOT** rotate. Water will always begin on Citrus and end on Cotton Lane during the winter schedule. For irrigators east of the 175th rear ditch, this will involve more gate changes and ditches to check for debris. **Please read the schedule carefully and take note of the irrigators before and after you.**

The winter schedule typically continues until sometime in February and I will provide notice to the community as soon as we can return to a regular schedule. Please note we have no control over these schedule changes as it is determined by the Maricopa Water District.

Please do not hesitate to contact the office at 623-217-8087 if you have any questions.

Thank you,
Raygina Garcia, Irrigation Scheduler
